

Longitudinal section of the road profile. The profile starts at PT +0.190 on the left. The ground surface is shown with a dashed line, and the proposed road grade is shown with a solid line. Key elevations include +0.000 = 200.800, -2.150, and -3.510. The profile ends at PT +0.045 on the right. The road width is indicated as 10.00m.

The drawing consists of two parts: a plan view (top) and a section view (bottom).

The diagram shows a cross-section of a road profile. The ground surface is indicated by a dashed line. Key elevation points are marked: PT+0.550 at the left edge, ±0.000 = 200.800 at the center, and PT+0.045 at the right edge. Vertical dimensions are shown: 1.750 from the center to the left edge, 0.705 from the center to the right edge, and 1.105 from the center to the bottom of the road structure. The road structure is shown with a width of 1.105 on both sides of the centerline.
