1. Architect

The Participant appointed the following person to the position of the "Architect":
Ing. arch. Ivan Matys.

In the list of the Architect's reference projects, the following reference project was stated on behalf of the Architect:

Designation of the new surface building for which the architectural study was prepared: *Hotel Bellevue, Starý Smokovec*

The Architect's role within the preparation of the architectural study: *Author, co-author*

Estimated investment costs of the given new building in CZK without VAT:

Contact details of the client: Not specified by the participant

The Participant did not list any other Architect's reference projects in the list of the Architect's reference projects.

this reference project meets the requirements stipulated by the Contracting Authority, especially whether the architectural study in relation to the new building of *Hotel Bellevue, Starý Smokovec* was prepared by the Architect within the last 10 years before the commencement of the Competition. The Participant stated the period of years 2009-2010 as the implementation period of the mentioned architectural study and did not further specify the calendar month of completion of the architectural design, although the model affidavit required to add both month and year of the architectural study preparation exactly to determine the period of the architectural design preparation. Therefore, it cannot be ruled out that the architectural design was completed earlier than 10 years before the commencement of the Competition (i.e. before 4 September 2010).

However, due to the fact that the Participant did not meet the condition to document at least 2 architectural designs for a new surface building of a civic amenity, which the person of the Architect prepared or participated in the preparation of, no further verification was carried out whether the architectural study stated by the Participant with regard to the person of the Architect meets all the requirements set by the Contracting Authority in paragraph 4.1.1. e) of the Competition Terms and Conditions.

Contact details of the client: Not specified by the participant

The Participant did not list any other Designer of building structures reference projects in the list of the Designer of building structures reference projects.

Given that according to paragraph 4.1.1. e) of the Competition Terms and Conditions, the Contracting Authority required that the person, who will hold the position of the Designer of building structures, participated, within the last 10 years before the commencement of the Competition, **in at least 2 cases** in the preparation of project documentation at least of the building permit documentation stage for a design of a new building with the estimated investment costs for the construction of the new building of at least CZK 100 million excl. VAT, and the Participant stated, in the affidavit to prove compliance with the conditions for participation in the Competition, in relation to the person of the Designer of building structures, only a case of one prepared project documentation in the preparation of which the Designer of building structures participated, the Participant did not prove compliance with the conditions for participation in the Competition pursuant to paragraph 4.1.1. e) of the Competition Terms and Conditions in relation to the person of the Designer of building structures.

At the same time, also with regard to this one reference project mentioned by the Participant on behalf of the person of the Designer of building structures, it was not possible, based on the information submitted by the Participant, to assess without further, whether this reference project meets the requirements stipulated by the Contracting Authority, especially whether:

- a) the project documentation in relation to the new building of *Hotel Bellevue, Starý Smokovec* was prepared by the Designer of building structures at the required level of DSP, as this information was absent in the Participant's affidavit, and further

Therefore, it cannot be ruled out that the project documentation was completed earlier than 10 years before the commencement of the Competition (i.e. before 4 September 2010).

However, due to the fact that the Participant did not meet the condition to document at least 2 project documentations at least of the building permit documentation stage for a design of a new building, in the preparation of which the person of the Designer of building structures participated, no further verification was carried out whether the project documentation stated by the Participant with regard to the person of the Designer of building structures meets all the requirements set by the Contracting Authority in paragraph 4.1.1. e) of the Competition Terms and Conditions.

3. Designer of transport structures

The Participant appointed the following person to the position of the "Designer of transport structures": Ing. Ján Tomko.

In the list of the Designer of building structures' reference projects, the following reference project was stated on behalf of the Designer of building structures:

Designation of the new land structure for which the transport solution was prepared: *Hotel Bellevue, Starý Smokovec*

The role of the designer in the transport solution preparation: *co-author*

300 mil.

Contact details of the client: Not specified by the participant

The Participant did not list any other Designer of transport structures' reference projects in the list of the Designer of transport structures' reference projects.

Given that according to paragraph 4.1.1. e) of the Competition Terms and Conditions, the Contracting Authority required that the person, who will hold the position of the Designer of transport structures, participated, within the last 10 years before the commencement of the Competition, **in at least 2 cases** in

delivering a transport infrastructure solution associated with the design of a new building with the estimated investment costs for the construction of the new building of at least CZK 100 million excl. VAT (in each individual case), and the Participant stated, in the affidavit to prove compliance with the conditions for participation in the Competition, in relation to the person of the Designer of transport structures, only a case of one prepared transport solution in the preparation of which the Designer of transport structures participated, the Participant did not prove compliance with the conditions for participation in the Competition pursuant to paragraph 4.1.1. e) of the Competition Terms and Conditions in relation to the person of the Designer of transport structures.

At the same time, also with regard to this one reference project mentioned by the Participant on behalf of the person of the Designer of transport structures, it was not possible, based on the information submitted by the Participant, to assess without further, whether this reference project meets the requirements stipulated by the Contracting Authority, especially whether:

- a) the transport solution in relation to the new building of *Hotel Bellevue, Starý Smokovec* was prepared by the Designer of transport structures within the last 10 years before the commencement of the Competition. The Participant stated the period of years 2009-2010 as the implementation period of the mentioned transport solution and did not further specify the calendar month of completion of the transport solution, although the model affidavit required to add both month and year of the transport solution preparation exactly to determine the period of the transport solution preparation. Therefore, it cannot be ruled out that the transport solution was completed earlier than 10 years before the commencement of the Competition (i.e. before 4 September 2010).

However, due to the fact that the Participant did not meet the condition to document at least 2 cases in delivering a transport infrastructure solution associated with the design of a new building with the estimated investment costs for the construction of the new building, in the preparation of which the person of the Designer of transport structures participated, no further verification was carried out whether the transport solution stated by the Participant with regard to the person of the Designer of transport structures meets all the requirements set by the Contracting Authority in paragraph 4.1.1. e) of the Competition Terms and Conditions.

With regard to the fact that the Participant did not state in its affidavit for the person holding the position of the "Architect", the person holding the position of the "Designer of building structures" and the person holding the position of the "Designer of transport structures", in each individual case, at least 2 reference projects that would meet the requirements for these reference projects specified by the Contracting Authority in paragraph 4.1.1. e) of the Competition Terms and Conditions, the Participant has not proven compliance with the conditions for participation in the Competition pursuant to point 4.1.1. e) of the Competition Terms and Conditions.

8.
