

The diagram illustrates the TDS network architecture. A central blue cloud labeled "TDS" is connected to several data centers represented by white boxes. On the left, a stack of blue boxes labeled "K" is connected to the TDS cloud. The data centers and their internal components are:

- CDP Praha**: Contains three blue boxes labeled "InS", "TeS", and "K".
- ED Praha Křenovka**: Contains one orange box labeled "K".
- SEE Praha - Libeň**: Contains two orange boxes labeled "K" and "KM".
- SŽE Hr. Králové**: Contains one blue box labeled "KE".

Red lines connect each of these data centers to the central TDS cloud.
