

Technical drawing of a roof structure. The drawing shows a gable roof with a central chimney. The roof is represented by a series of lines forming a gable shape. The chimney is a vertical structure in the center. The base of the building is a horizontal line. A scale bar at the bottom right indicates a length of 40 units.

Technical drawing of a rectangular plate with a central horizontal slot and four circular holes. The drawing includes dimensions: overall width 900, overall height 450, slot width 470, and hole diameter 130. The slot is 120 units high and 35 units thick. The holes are 85 units from the side edges and 120 units from the top and bottom edges. The plate is shown in a perspective view with a hatched central slot.
