

Annex P13 – Instructions for electronic submissions

"Railway Bridges under Vyšehrad"

**for the architectural and structural
design of railway bridges under Vyšehrad**

The capitalized terms used in this document have the same meaning as stated in the definitions in the Tender Documentation.

INSTRUCTIONS FOR ELECTRONIC SUBMISSIONS VIA THE CONTRACTING AUTHORITY'S PROFILE

According to the Tender Documentation, the participants are obliged to submit some of their submissions in electronic form during the Competitive Dialogue.

Electronic submissions may only be made by a participant who will be **registered in the relevant Electronic Tool**.

For the aforementioned reason, the Contracting Authority requests the participants to register for the purposes of the Competitive Dialogue in the Electronic Tool of the Contracting Authority - <https://zakazky.spravazeleznic.cz/registrace.html>.

Detailed instructions on how to register with the Electronic Tool are described in the User Guide available [HERE](#).

For successful completion of registration, a valid, so-called recognized electronic signature (i.e. a guaranteed electronic signature based on a qualified certificate) will be required within the meaning of Section 6(2) of Act No. 297/2016 Sb., on trust services for electronic transactions.

Obtaining an electronic signature and successfully registering in the electronic tool can be time consuming and, therefore, the Contracting Authority strongly recommends that prospective participants register as soon as possible.

Electronic signature based on a qualified certificate is issued in the Czech Republic by the following accredited certification service providers:

- Česká pošta, s.p. (<http://qca.postsignum.cz>)
- eIdentity, a.s. (<http://www.eidentity.cz>)
- První certifikační autorita, a.s. (<http://www.ica.cz>)

Electronic signatures based on a qualified certificate issued by a foreign provider according to the list at <http://euts1.3xasecurity.com/tools/index.jsp> are also accepted.
