UOP: T OROUXYFEGEE

Diagram illustrating a DNA segment with a mutation. The top strand is labeled "UOP: T OROUXYFEGEE". The bottom strand is labeled "T OROUXYFEGEE". A red circle highlights the "O" at the third position of the top strand, which is labeled "O" in a red circle. Below the DNA segment, there are four circles containing the letters "T", "O", "R", and "O" respectively, corresponding to the first four positions of the DNA segment.
